

Spiral Box By Gina Pisello 2023

Steps:

1. Cut along all solid black lines
2. Score and crease all mountain + valley folds.
3. Glue triangle fold sections (front and back) to create spiral.
4. Glue tabs to box sides. Some finessing is required at the tip of the triangle to finish the box.
5. Make a box bottom by reversing all folds and trimming $\frac{1}{16}$ " (2mm) from top edge of the template.

- Mountain fold
- Valley fold
- cut line
